Booksellers, Postmasters, and Clubs, can be supplied with any number of copies they may wish, at the above rate, through any agent they may select in the City of New York.

Agents who may be appointed by booksellers, postmasters, or clubs, will be supplied with the publications at the lowest rate they may be furnished to any other agent in the City of New York.

Booksellers, Postmasters, and Clubs, can be supplied with back numbers of the Reviews, and Blackwood's Magazine, from the commencement of the publication,

Whig and Courier.

John S. Sayward, Editor.

SATURDAY, FEBRUARY 10, 1848.

☞ The National Intelligencer suggests to the Whig press to obtain from all structures upon the several gentlemen named as Whig candidates for the Presidency. This is a good suggestion and should be generally heeded for the sake of harmony and union, upon which alone the Whigs can hope to succeed in the coming election. A national convention has been called, and to do so there should be a general and a generous acquiescence on the part of the Whig press and the entire Whig party.

These popular conventions form an important and practical part of our system of popular representative government, although entirely unknown to our constitutions and our laws. They are a portion of the unwritten system of our government, and yet seem to be essential to reflecting the great design of the written provisions of our constitutions.

In the coming Whig national convention will be assembled a fair representation of the wisdom and prudence of the Whigs of the Union, and it certainly cannot be asking too much of the Whigs generally to hold themselves in readiness to support the candidates which such a convention, after due deliberation, shall propose.

We certainly feel strongly disposed to give the best support of our press to advocating the election of either Mr Clay, Gen Taylor, Gen Scott, Judge McLean, Mr Clayton, or any other reliable Whig which that convention will be likely to nominate, and we are strongly disposed whatever our preference of these men, to yield our preposessions in order to secure for the country the benefits of a sound and honest Whig Administration.

☞ General Taylor's letter to Secretary Marcy, has very justly attracted great attention as being just the thing for the occasion. Indeed, General Taylor has won much applause for the able manner in which he comes up on full measure to the occasion, just doing the right thing at the right time, and in the right manner.

The Washington correspondent of the Boston Atlas states that when Secretary Marcy's scolding letter reached old Rough and Ready, he was at his supper after the fatiguing duties of the camp. Having read it, he slowly squeezed it into a lump, in his hand, and then turned a whole pot of mustard on his cold meat, which he swallowed with great avidity. Immediately after swallowing the mustard, he wrote the letter referred to, and which is now before the country.

It is truly refreshing and gratifying to find the strong and fitting reply of Gen Taylor to Mr. Marcy's insulting letter, especially when we consider of the facts in the case as viewed by the Atlas correspondent, viz. That immediately after writing the letter Mr. Marcy set his partizans to work to disgrace General Taylor.

This they attempted by amending a resolution proposing thanks and a medal for his gallantry at Monterey, by declaring that it was not to be construed into an approbation of the terms of the capitulation at Monterey. And by the declaration of the Loco leaders that they must have Democratic Generals to carry on the war. But after every expedient has been tried with the utmost of hostility against the worst thing the locos could bring against Gen. Taylor was, that he did not proceed to burn down houses about the heads of unarmed priests and defenceless women and children, after they had offered to capitulate!

Foreclosure of Mortgages.

The People's Press suggests that a citizen of that town eminent in the law has expressed a doubt whether the larger number of the notices of Foreclosure of Mortgages which are being published in the newspapers will answer the requirements of the law, on account of imperfect description of the premises.

This is certainly an important suggestion and has led us to examine the law, and we find the requirements to be the following:—

The mortgagee or any person claiming under him may for the purpose of foreclosure of mortgage, give public notice in the newspaper printed in the county, where the premises are situated, or, if there be none such then in an adjoining county, or in the newspaper published by the printer to the State, three weeks successively, of his claim by mortgage on such real estate, *describing such premises intelligibly, and naming the date of the mortgage* and that the condition in the same has been broken by reason whereof he claims a foreclosure, and cause a copy of such printed notice, and the name and date of the newspaper, in which it was last published, to be recorded in each registry of deeds, in which the mortgage deed is, or by law ought to be recorded, within thirty days after such last publication.

The law very clearly requires an intelligible description and it may as has been suggested, be a question of no little importance whether a reference to a description to be found, for instance, in the Registry of Deeds, by naming the volume and page of other notices short of this, can be considered within the intent and meaning of the law. At any rate the importance of the subject and a proper caution to avoid the necessity of expensive and tedious litigation should lead all to look to the necessary labor upon the preparation of their notices so as to embrace a full description.

New Administration Leader in the Senate.

The National Whig, at Washington, says it is avowed on the best authority, that Gen. Houston is to assume the leadership of the Administration in the Senate. On the Ten Regiment Bill he will develope just so much of the administration policy in regard to Mexico as may be deemed proper to be made known. Mr Cass has been thrown overboard by the administration.

☞ Efforts are now being made in various parts of the country, for a lessening of the rates of postage. This is an important matter for the people—The rates which would probably be satisfactory to the people and remunerate the department, are Newspapers one cent, all to be prepaid except those sent from the offices of publication. Letters under 300 miles, 2 cents; over 300 and less than 1,500 miles 5 cents; over 1500 miles 10 cents.

Letters not prepaid to be charged double the amount.

Successful treatment of Cancers, Tumors, Abscesses, &c.

Dr John Lord of this city, whose card may be seen in another column, seems to have adopted as exceptable theory regarding the pathology of cancers and tumors, and also a successful and easy method of treatment. His theory and practice have met with the hearty approval of some of the first medical men in the State, and his treatment has received the approval of a large number of patients which he has operated upon. Without the use of Chloroform he removes tumors some of them very large and obstinate, with but trifling pain, with little use of the knife, and with very trifling or no discharge of blood.

We had a wen removed by him yesterday, without pain, and with the spilling of only a few drops of blood. We have heard Dr Lord explain his theory and we give it as our deliberate opinion, whatever others may deem it worth more or less, that his system will become in time as it deserves to do the prevailing method with surgeons, in the treatment of cancers and tumors.

Our advice to all afflicted with tumors is to avail themselves of the Doctor's skill while he remains in the city.

☞ A bill has been introduced into the New Jersey Legislature for the preservation of newspapers which authorizes the clerks of counties to bind the and preserve in a bound form, all the papers published in them.

No better general or local history can be found than the newspapers, and in future years as matters of reference they will prove valuable.

☞ Judge Patton, of Pittsburgh, has decided, that where a master becomes a habitual drunkard after receiving an apprentice it is sufficient cause for the apprentice to claim a discharge from his indentures. This is right on decision.

☞ The Maine Farmer states that if perry elm will do well if engrafted into the common elm. It also recommends the setting out of slippery elm trees. They are for sale in Vassalboro' by Mr Taber.

☞ The Billsworth Democrat a paper by the by, which does not reach us often, states that Mr James Abbott of Franklin aged 80, and also Mr Lancer Wass of Columbia were both recently killed in Franklin by trees which they were severally felling.

☞ Capt Elijah Crockett of Thomaston about whose sudden disappearance so great a clatter was made, has turned home and says he went into the country for a few days and forgot to mention the fact to his wife.

☞ The ladies of the Universalist Society in this city are to give a grand public Tea Party at Market Hall on Thursday evening next.—Every thing will be in real "apple pie" order with all the attractions usual to such benevolent and social gatherings. See card in another column.

An English paper says that 15000 weavers are out of employment in and about Bradford. They talk of emigrating to this country.

☞ The New Church association (Swedenborgian) will hold religious worship at the High School room to-morrow forenoon.

Rev Mr Bowles of the Congregational Church in Quincy in returning from a meeting in city in a sleigh, in company with a lady drove into a hole in the ice in the Chickatawbut basin, and was drowned. The lady escaped.

Mr. Appleton, late chief clerk in the Secretary of the Navy, has been appointed chief clerk in the State Department, in place of Mr Trist, and Dodge Young of Portsmouth Va, has been appointed in place of Mr Appleton.

Vessels at Anchor.

The Portland Advertiser states that many eastern vessels frequenting Portland Harbor, are in the habit of claiming the principles of maritime law as laid down by Judge Ware, in the case of the Scotia, and requests Eastern papers to call the attention of shipmasters to the following points:

"A vessel ought not to be moored and left to the chance or entrance to a port except in cases of necessity, or if anchored there from necessity, she ought not to remain there longer than the necessity continues. If she does, and a collision takes place with a vessel entering the harbor, she will be considered in fault.

"A vessel lying in the channel from necessity is bound in the night time to show a light."

This is good commonsense law, and is very clearly explained by Judge Ware in the following:

"And though in the absence of any harbor regulation, every master may choose his own place of anchorage he makes the of once an unknown responsibility. It does not follow because there are no special laws or regulations for the port or harbor, that they are left without law. The general law of the country governs. In all situations men are bound by the common obligations of social duty, so to use their own right as not to injure others. *Lex neminem ledit quem non ledit*, is a principle of the law is not a maxim. The law of the state does not, did true attempt to force by penalties all the obligations of high and strict morality, but this is one in which, in a great variety of circumstances, it does come in aid of socially and first as an ally. It requires men to care for others as well as themselves and so to exercise their unquestioned right as not to violate or infringe the equal rights and endanger the security of others. Admit that in a case of urgent necessity a master has a right to bring his ship to anchor in the very middle of the channel, Others have a right to that channel as a passage way as well as he. He could not remain there longer than his necessities required, without encroaching on the rights which others have to the free use of the channel in passing and repassing, without dangerous obstruction. He is bound as soon as he is able to remove his vessel to a place where she may be safe herself and not endanger the safety of others. It is an old rule of the maritime law, that a vessel improperly moored or in an improper place can claim nothing for damages she may suffer from collision with another vessel."

The Slave Traffic.

A recent letter from Rio Janeiro to the N Y Evening Post, contains the annexed intelligence:—

The slave trade is brisk. The recent orders which the Consul has received, to grant sailing over the seas to any American vessels which may be sold here to Americans citizens whatever their character may be, have given a great impetus to it.

We are very sorry (says the Post) to learn this. If a fleet have been given to the American Consul of so very general a nature as is here said, it is the very method to encourage, to protect, to pamper in fact, the slave trade.

About 2500 men are constantly employed in Sampay in the manufacture of musical instruments. These persons furnish annually, wind and brass instruments to the amount of about 120,000 thalers; string instruments to the amount of 75,000 thalers and eight pieces of different instruments, amounting to about 30,000 thalers. Two-thirds of the above sums are expended in wages. Altogether there are about 65,000 persons who make their living in one way or another from the manufacture of these instruments.

☞ Some one has composed the following temperance argument.

When a young lady signs the pledge,
It is just as good as two,
For when her sweetheart finds it out,
He's got to sign it too!

One animal well fed, is of more value than two poorly kept.

WAR EXPENSES.

BY ALBERT GALLATIN

Concluded

The pamphlet proceeds to an investigation of the receipts and expenditures of the government since the commencement of the war, by an analysis of the late Treasury report. It appears that the total receipts into the Treasury from revenue and loans during the year ending June 30, 1847, including the balance in the Treasury at the commencement of the year was $61,154,628 and the balance of the end of the year $1,711,291.—The amount of expenditure was therefore $59,451,77

The portion of the expenditure which was applied to the purpose of the war during the first year that it continued, Mr Gallatin, after carefully examining the documents, estimates at $35,545,293. He however remarks that although this amount thus expended has been destroyed by the war yet the whole is not the result of the Mexican war. A sum of about three and a half millions of dollars making a part of the army expenses would have been required by the army had the war not existed, and therefore this amount ought to be deducted from the amount charged to the war with Mexico. This reduces the actual destruction of property by the war in its first year, as thus shown by the Treasury reports to about $32,000,000.

The pamphlet next proceeds to an investigation of the estimates for the current fiscal year, ending on the 30th of June next. The estimates from the War Department carry the amount demanded for the service of the year to $38,937,714. Mr Gallatin states his reasons for the opinion that it is highly probable that the total expense in that year will not fall short of forty five to fifty millions of dollars for the troops alone which are now authorized by law.

In regard to the fiscal year ending June 30, 1849, Mr Gallatin remarks: "It appears to me improbable that the expenses for that year should not be equal to those for the year ending June 30 1848.

The Secretary estimates them at only $31,856,758, to which is added for navy and indians, the estimate of two millions, they would still amount to less than thirty-four millions. In confirmation of the opinion above expressed, he quotes the remarks of the Quartermaster General, in reference to a large reduction made in his estimate.

Mr Gallatin then proceeds to consider the effect of this expenditure on the money affairs of the United States. The causes which prevented the evils of the war from being felt for a while, have ceased to operate. The total derangement of money affairs and great depression in England, has rendered affairs in this country, and produced a natural effects, a reciprocal want of confidence, a rapid rise in the rate of exchange, and a large exportation of specie. The amount of specie in the vaults of the Banks in the city of New York was reduced two millions and a half of dollars, during the month of November.

In regard to the prospects of the continued demand for specie Mr Gallatin remarks:—

It does not appear to me that there is any great danger to be apprehended from a long continued exportation. There was, in the course of the present crisis in Great Britain, in the first place, a large exportation of specie principally to the United States in payment for the article of food she was obliged to purchase, and subsequently a great demand for specie. This has been simply supplied, and, for the present at least England wants no more. If any continues to be exported there, this is principally due to the want of confidence, and those other causes, which created a scarcity of bills of indubitable credit on Europe, and raised the price of these two per cent above the true par.

There is yet, scattered in the interior, a large portion of the specie imported during the preceding year, and this will, as it always the case, naturally flow to the place or places where it is most needed. In point of fact this has always taken place and notwithstanding the confidential exportation, the amount of specie, in the vaults of the banks, has during the last three weeks, been increased several hundred thousand dollars. As soon as the internal navigation shall be open, large quantities of cotton, pork, and other articles of food, will be exported to Europe, and cotton can not be held back much longer.—Thus far everything is sound, but the high rate (at least one per cent a month) at which money is borrowed on paper of undoubted credit, would alone be sufficient to show, that great caution is required on the part, not only of the banks but of all those who are engaged in active business.

Notwithstanding the great increase of national wealth, there is still a perpetual demand for capital. The circulating capital of the country is clearly the fund, out of which the public revenue, and loans must be raised, and the effect produced by a demand of thirty millions within the next six months, requires serious consideration.

That the deposits in banks are the most disposable circulating capital of the United States is undeniable, for the simple reason that they bear no interest. They constitute, therefore, evidently, the fund most likely to supply the stream of subscribing to the loans of the United States. Is there any other similar fund, any other amount of dormant, unemployed circulating capital, which may, to any considerable extent, be made to yield to the public loans?—There may at be some superfluous specie in the interior, some small amounts hoarded up and wasting up as a profitable investment. But the total amount, that can be derived from that source, will be but a most insignificant item, compared with the amount of the loan which is required.

There may be many persons, desirous of converting State or other local stocks, bonds, or any other marketable property, into Stocks of the United States. The only consequence is that, in such a case, the purchasers of such objects must, instead of the money lenders, find the means of raising the money, and this must likewise be supplied by the same fund, by the circulating capital of the country.

Whatever view of the subject may be taken, the conclusion is the same. The circulating capital must supply the loans and all the other means of carrying on the war. The portion of that capital, which is the least actively employed, which will, in the final instance, supplies the means, and the ability of the banks to discount will be lessened, to an extent equal to the reduction in the amount of their deposits.

It may, indeed, be assumed that the ordinary returns, in payment of the sales of imported goods, will enable borrowers to pay, not, however, without some pressure, the fifteen millions of Custom House duties expected to be collected during the first six months of the calendar year 1848. But it is impossible that the effect of a loss of eighteen millions and a half, a considerable portion of which must be supplied by the bank deposits, should not be more seriously felt.

The bank deposits must necessarily be more or less diminished; the banks must contract their discounts to the usual extent, and the usual channels be deprived, to a considerable extent, of the usual accommodations on which they rely in order to carry on their business. The City Banks understand their position, they will make no unnecessary contraction, but they will resist the demands and the clamors for what is very improperly called a liberal course, that is to say, discounting beyond their means. The recollections of the incidents of the last suspension and resumption of Specie Payments, a sense of their duty to the public, and the danger of an imbecile or ill act somewhere in entering upon such a course with Europe this only adds to alarm.

A suspension of specie payments would infallibly shake the credit of the country, and there is now no hope of legislative relief. For it is prescribed by the Constitution of the United States that—

The Legislature shall have no power to pass any law, authorizing or sanctioning, directly or indirectly, the suspension of specie payments, by any person, association, or corporation, under any pretext whatever.

For all this there is no remedy. The expenses, for the fiscal year, ending June 30, 1848, are in a great degree already incurred, at all events unavoidable. According to all appearances, the evil will be prolonged at least one year longer. There is hardly any hope that peace shall be concluded by the present Administration. Unless relief should come from some unexpected quarter, it is impossible that the pressure should not become more and more intense, and be felt through the whole country as long as the war continues.

I have spoken more particularly of the City of New York, because I know it best, and because it is by far the most important point, in reference not only to Commerce and Revenue, but also to Currency. It has been proved by experience, that the Banks of this City may resume and sustain specie payments, alone, and on the other hand, that their suspending such payments, is attended with a similar failure by all or all the other banks in the United States. And the same causes, which will produce a pressure in New York, will operate directly in the same manner, on Boston, Philadelphia, Baltimore, and all the other important sea-ports.

It has already been observed, that the deposits in the banks of the Western States, were wanted and available only for local purposes. But that was not saying enough. The Western States have not, as yet, accumulated a sufficient circulating capital for their local demands. Possessed of the richest soil in the Union, that is their only wealth. In all their undertakings, whether successful or irrational, they have always relied on a foreign capital. It is impossible the every portion of the Union should not be to a greater or less extent, affected by any considerable diminution and destruction of the National Circulating Capital.

☞ Thanks to Hodgman & Co's Express for papers received last evening in advance of the mail, as thanks to Jerome & Co's Express for similar favors.

The True Nobility.

Labor, industry, and virtue, go hand in hand—Idleness, and idleness lead to wickedness, immorality and vice. Down with all aristocracy, all nobility—save the nobility of true virtue and honest industry. Toil either of the brain, the heart, or the hand, is the only true manhood, the only true nobility.

To Cure Warts.

Dissolve as much common washing soda as the water will take wash the warts with this for a minute or two, and let them dry without wiping. This repeated will gradually destroy the largest wart.

A true friend unbosoms freely, advises justly, assists readily, adventures boldly, takes all patiently, defends courageously and continues a friend unchangeably.

A bare pasture enriches not the soil, nor fatten the animals, nor increases the wealth of the owner.

Song of the Zephyrs.

List to the silvery tones
Of the gentle Zephyr's song,
As on the first breeze
Its melody is borne.

List! List! soft dulcet notes
Come stealing through the air,
Sweet music from a brighter sphere
Bedews the enchanted air.

List to the song awhile,
Mark how each varied note
So tuneful to the richness,
In excellent cadence floats.

List to the sylph song
As its wild and plaintive wail
With all the force and softer strain
Soon swells the rushing gale.

But lo! the song has ceased,
Its notes are sweet, are gone,
The soft and lute-like strains
Of the gentle zephyr's song.

FANNY

BY THE LAST MAIL.

CONGRESS.

WASHINGTON, Feb 8

In the Senate, a message was announced from the House. It communicated the vote of thanks passed yesterday to General Taylor and Scott. Senator Tuber suggested that the Officers of the Navy should be included, and moved that the resolution be referred for that purpose.

Mr Mangum proposed a separate resolution of thanks to the officers of the Navy and hoped it would pass immediately.

The motion to refer then to the committee to report was adopted.

The Ten Regiments bill was then taken up.

Mr Miller addressed the Senate in opposition to the bill.

He referred to the President's Messages, and argued that the war was not prosecuted now for the accomplishment of the objects laid down in the act of 13th May, 1846 recognizing the existence of the war and providing for carrying it on.

Mr Underwood obtained the floor but yielded it to Mr Niles, who addressed the Senate in support of the bill.

Mr Cass intimated that he would, to-morrow, introduce a resolution providing for evening sessions, until the bill is disposed of. The debate had been unusually protracted, and prompt action having become necessary to sustain the honor and interests of the country, he would be compelled to urge the holding of evening sessions.

Mr Berrien was strongly opposed to the course suggested by Mr Cass.

Adjourned.

In the House, Mr J. R. Ingersoll of Pennsylvania, reported a resolution to give the widows of deceased members of Congress the same mileage allowed by the House for the burial expenses of a member.

Mr Atkinson of Virginia opposed it. Even if he were alone in his opposition to it, he declared that he would vote against it.

It was finally *referred*—ayes 79, noes 64.

A bill from the Senate to appoint an examining officer to the Patent Office at a salary of $2,500, with assistants at 1,400, was taken up. A motion was made to refer it to the Committee of Ways and Means.

Mr Pettit of Indiana opposed the reference.

Mr Hall of Tenn. while he concurred with Mr Atkinson wanted to know who was to have the appointment of the proposed officers.

The loan bill, authorizing the Government to borrow $18,500,000 to meet the expenses of the war, was then taken up.

The question before the House was on a amendment to substitute $16,000,000 for $18,500,000.

Mr Vinton of Ohio spoke at great length on the fiscal regulations of the Government.

Mr Legaré of Maryland followed in support of the bill. Adjourned.

WASHINGTON, Feb 9.

In the Senate—Mr Dix presented resolutions with instructions from the Legislature of New York, directing the Senators from that State to vote in favor of the applications of the Wilmot Proviso. They were ordered to be printed.

The House bill confirming the boundary of Missouri and Arkansas was passed.

Mr Niles addressed the Senate on the Ten Regiment bill and commenced a reply to Mr Bell's accusations against the Democratic party, of being actuated by a reckless desire for the acquisition of territory by conquest. He blamed the conduct of both parties in regard to the war. The country desires peace. He maintained that the bill for maintaining a military position a short time would fail of negotiation. A vote to the bill might strengthen the chance for peace.

Mexico desired peace, on terms not unreasonable. Now is the time to make peace. There was no justification for the States to prolong the war. Hostilities ought to be brought to a close which could be done on the basis of the original claim, and the Rio Grande as a boundary.—The indemnity of land was already in our possession.

In the house, a bill was introduced to provide $500,000 for the discharged soldiers, who disembarked at New Orleans or other places.—The bill was read three times and passed.

A bill to provide additional quarters for the troops of the regular army and the volunteers going to Mexico, was read three times and passed.

A bill for the establishment of a territorial government in Oregon, was on motion of a member from Indiana made the special order of the day for Monday the 13th of March.

Mr Fisher of Ohio, resumed the debate on granting the means to carry on the war. He contended that the original cause of the war was the annexation of Texas, and the immediate cause was the passing the Nueces to the Rio Grande. He asked how Texas was the owner of the territory claimed. It must be one of two ways, by conquest or purchase. Texas never conquered it, because since the annexation of that country to the United States, it was obedient to the government of Mexico.

Mr Fisher contended that the United States commenced the war with Mexico and that even now if a fair treaty of peace was offered Mexico would accept it.

Mr Thomas of Tennessee, remarked that it was on the power of the President to see his discretion in giving or withholding correspondence in all cases to wait as in that of Mr Slidell &c.

The House then went into Committee of the Whole on the affairs of the Union.

CHERRY PECTORAL,
for
Coughs, Colds, and Consumption.
Sold in Bangor at wholesale and retail, by
GEO W LADD

This elegant and surprisingly excellent remedy has received the highest commendations of many medical colleges and schools of the United States as well as the distinguished medical authorities of British America.

Mutual Benefit Life Insurance COMPANY.
—OFFICE No. 9 GRANITE BLOCK—
EAST MARKET SQUARE BANGOR.

THE affairs of this Company are in the hands of business men favorably known to the community, who have permission to refer to the following gentlemen in Boston:
Hon J G Rogers, Saml A Appleton Esq,
Hon B Pierce, Messrs. J E Thayer & Bro
Robt G Shaw, Esq, Johnson Sewall & Co,
and to the following Gentlemen in Bangor:
Hon Edward Kent, Charles Hayward
James Cushing, Joseph Bryant
Rev S F Stickland

This Company offers the following advantages:
1st When the premium is over fifty dollars annually, one-fourth may be paid in cash, and three fourths in a secured note at twelve months, with six per cent interest, or it may be paid half yearly, quarterly or monthly.
2d Parties taking life policies and paying fifty per cent of premium in cash, and those taking policies for a short period, and paying ninety per cent in cash of over fifty dollars per annum, may give their individual notes for the balance if satisfactory to the officers.

Whole number of policies issued in 28 months to the last of January 1848 4157
Whole amount of premiums thereon $444,314 82
Dividend of profits, January 1847 35 per cent.

This Company has now been about 12 yrs in operation and it is a gratifying circumstance, that its progress has fully tested the principles adopted in its management, and that far more than realized the most sanguine expectations of its friends.

Its remarkable amount of business, which is without a parallel in the history of Life Insurance shows that it is gaining in public confidence and that there is an increased disposition in the community in favor of its beneficent operations.

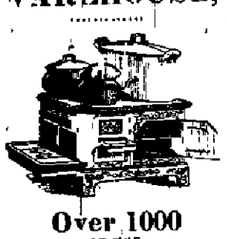
000 STOVES
AT WHOLESALE AND RETAIL
—AT—
N. JOHNSON,
Nos. 80 & 82 Main St.
AND
Nos. 2 & 4 Wall Street,
BANGOR.
CHEAP CASH
STOVE
WAREHOUSE,



Cooking Stove.
American Airlight.
Over 1000
OF THE
American Air-Tight
Cooking Stoves
WERE RETAILED in Boston by Gardiner Chilson, in the shortnesse of six months, and a large number have been sold by myself in this city. This Stove is not equalled by any other stove in the United States, and the unparalleled sales it has met with fully bespeak its unparalleled merits.
HOUSE-KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand house-keepers the past season. It has more real and useful improvements than all others combined. The fire-brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light. The brick is equal to the best brick oven! The brick is found to be more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., is complete. The grate clears itself, discharging the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. In inviting appearance, substantial construction, and general good qualities, have set it forth to be
THE STOVE FOR THE PEOPLE!

TWO-OVEN

O'egon!
More than 500 of which were retailed last season warranted to be the best two-oven Stove out.
A large assortment of the various kinds of
COOKING STOVES
of the very best patterns, and which will be sold at reduced prices, together with a great variety of Hotel, Parlor, Office, and
Air-tight Stoves,
of the latest patterns.
Also—RANGES, FURNACES, and GRATES, of the most approved patterns, which will be offered at great bargains
COPPER, SHEET IRON, LEAD PIPE, ZINC, &c., constantly on hand, and for sale at Boston prices.
Also, just received 50 of DOUGLAS'S PUMPS, known as the best out, which will be put up and warranted
B. B. Copper, Sheet-Iron and Tin Ware manufactured as above, and by the best of workmen.
☞ Orders gratefully received and promptly executed.

Address

S. AUGUSTUS MITCHELL,
Northeast corner of Market and Seventh Streets, Philadelphia.

Dec 21

TO THE PUBLIC.

IT is well known that there is secreted on the stomach, a fluid which is called Gastric Juice; that the food when taken into the stomach is acted upon by this Gastric Juice, which is then converted into a pulpy substance called Chyme, then passes into the upper portion of the Intestinal canal, there becomes mixed with Bile and Pancreatic Juice, and is by intestinal men termed Chyle, a portion of which is in that state to be, and is taken up by small vessels called Lacteals, carried into the system, and converted into Blood. The food after being so changed becomes assimilated, gives nourishment, and supplies the waste in the body, hence the good effect of Digestion.

How important therefore, that the digestive organs perform their functions properly! These are also, innumerable sympathies existing between the Dyspeptic Stomach and distant parts of the body, some few of the effects of which are here given—Sick Headache, Nausea and Vomiting, Low Spirits Despair, Mental Derangement, Irregularity of Pulse, Palpitation of the Heart, Difficulty of Breathing, often leading the patient or his friends to suspect incurable Organic Disease; all of which might have been prevented by timely attention to Dyspeptic symptoms and proper treatment. It should also be known that these troubles not unfrequently exist as the effect of disturbances of the Digestive Organs, when the ordinary Dyspeptic symptoms are not discoverable, and should be treated accordingly. The deplorable effect of a disregard to these important truths, it is indeed melancholy to contemplate.

A consideration of these facts, and observation for more than a quarter of a century in Chronic Diseases their true progress and end, have led the Proprietor to an anxious inquiry, whether there is in the whole catalogue of medicine a combination which is better fitted than all others to remove the far more common causes of these dreadful maladies. The result of this research, and much experience, is now offered with great confidence to the public.

HOLDEN'S

Alterative and Tonic Mixture,

as the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles attributed to impurity of the blood.

In the cure of Dyspepsia it possesses great power, promoting a healthy action of the stomach and correcting a vitiated state of the fluids connected in digestion, thus removing the cause of many disturbances which are known to arise from this disease.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the Appetite becomes regular and good. Digestion perfect. Sick Headache and painful nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter, growth of a morbid action of the former, even after the ordinary symptoms of Dyspepsia are wanting, have been cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a derangement of the stomach, and are removed by its use.

Persons both adult and children, left feeble by protracted illness, on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

GEO W HOLDEN,
No 350 Broad Street,
Newark, N. J.

---

DR. WARREN'S

SARSAPARILLA, TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians and unprejudiced, and effectual remedy for Scrofulous, Mercurial and Cutaneous Diseases; Jaundice, Indigestion, Dyspepsia, Bilious Disorders, Lower Complaints, Costiveness, Want and Sore Stomach, Ulcers and running Sores, Swelling of the Limbs, Pain in the Bones, Tetter in the throat, Rheumatic affections, Salt Rheum, Erysipelas, Bad Humors, Eruptions on the face and body, Cancerous sores, King's Evil, Chronic Diarrhea, Languor, debility, headache, dizziness, asthma, consumption, and all those diseases which arise from a decay of Nature, or from an impure state of the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and everything Mercurial to the taste. The change which is produced in the condition and tendency of the system is rapid and permanent.

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and checking all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are perfectly marvellous.

Prepared and sold by DAVID D. BRADLEE, of the Magnolia de Senia, (Magnolia of health,) 120 Washington street, Boston, General Agent for Graham's Hungarian Balsam of Life, Graham's Pills Electuary, Bradlee's Purifying and Preserving Pills, Dr. Jackson's infallible Eradicator, Bradlee's Non-Mercurial Hair Restorative, Bradlee's Superior Cologne Water, &c.

Also—to shave, all the Superior Razors in general use, pure and genuine, at the lowest possible prices.

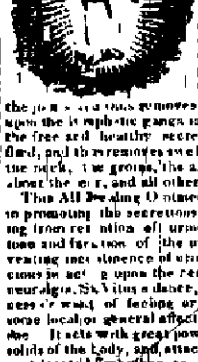
M'Allister's

ALL-HEALING

Ointment,



FOR THE CURE OF Colds, coughs, consumptions, fever sores, scrofula, scurvy, and all cutaneous eruptions; for bruises, burns, scalds, cases of ill kinds and general vital debility.

This celebrated Ointment has most striking effect upon the blood, in cleansing it from all impurities, puts the sluggish fluid, which lubricates the joints and uses, removes stiffness and pain upon the slightest exertion, or glands, promoting the free and healthy secretion of the lymphatic fluid, and thereby removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine; and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous system. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated, invaluable and world renowned "ALL HEALING OINTMENT." The unimpeachable facts that have been assured, by ten thousand sufferers relieved and cured, and by more than ten thousand hearts which have been comforted and cheered by its salutiferous efficacy, testifying to the truth of all, and more than all, here asserted.

DEAFNESS CAN BE CURED!

COOPER'S EFFERENT OIL.—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have lately established its superiority over every former Medical Discovery.

This valuable Aqueous Medicine is a compound of fourteen oil, one of which, the rare and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and even 30 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the inventor claims not the distinction of an Infallible Remedy in all cases, but the Ear is perfect in its formation.

For further particulars, and evidence of its great value, see printed circulars in the hands of Agents.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy and many other diseases equally fatal, are therefore neglected until the hopeless stage of Consumption or Irritation of the Lungs is reached. Consumption is then called incurable, and almost so. Yet Experience has shown that disease seldom, if ever, is the result of confirmed disease of the Lungs, but is the result of an uncured cold, or cough, which, if properly treated, would have been cured. Why, then, do not the sufferers from Coughs, Colds, Asthma, &c. apply the proper remedy, but trust to the quackeries of Physicians, or to the thousand useless nostrums, which are recommended by the most authentic testimony. Of the cures in the only true one, the following are a few specimens:

DR. VONDERSMITH'S

INDIAN COUGH BALM

and Lung Balsam.

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION

AND AFFECTION OF THE LIVER,

CURED,

Of Twenty Year's Standing!

City of New York, July 9th, 1847.

This is to Certify that I labored for Lumbago, or Jerks, for twenty years, and during that time I had a hacking cough and a pain in my side and chest, attended with night sweats and a general weakness of the system. I was given up by twenty eminent physicians, and pronounced INCURABLE CONSUMPTIVE. I then tried the advice of regular physicians in the city, who proved to be no better than the rest of empirics, and I was yet in a high fever, and the physicians ordered it to be taken. I was induced to try Dr. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by hearing of a friend, who had been cured by it, and I have been completely relieved in the following manner, viz. the pain in my side and chest, and the night sweats, have been removed, and I am now enjoying good health, and I am confident that I owe my life to the use of Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I do not hesitate to recommend it to the public, and in the hope of benefiting others I solemnly attest to the facts in this certificate.

NELSON LARRABEE.

Sworn to before me, this 22d day of July, 1847.

WM. V. BRADY, Mayor
of the city of New York.

INFLAMMATION OF THE LUNGS

New York, June 19 1847.

Dr. Vondersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I had had spitting of blood, and I thought I could not, possibly survive an hour longer without relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white froth; this was, in fact, should I give the full pressure of my lungs, it would be almost torrent-like. I was recommended to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced, when I had used it about one bottle, my cough began to lose its violence, and I began to have great hopes. I persisted with the medicine according to direction, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, and I the present time. Entirely believing that I owe my life to Dr. V's invaluable Medicines, but, I would be murdering in the silent grave. Therefore I believe that I am doing nothing but justice, in stating the above facts, so that you may show it to all those afflicted who may call upon you to ascertain it from them. I shall be pleased at any time to converse with the afflicted who may call upon me.

Your grateful patient and friend.

JAMES B. HENDERSON, No 303 Washington st.

Sworn to before me this 19th day of June, 1847.

WM. V. BRADY,
Mayor of the city of New York.

CONSUMPTION.

TRAVELLERS, June 10th, 1847.

Dear Sir—It gives great pleasure in giving you my certificate, as at December I was attacked with a hacking cough in my left side, loss of appetite, and considerable expectoration of a dark yellow mucous. Some days I raised a half pint of mucous, stained with blood. I was then under the treatment of a dozen physicians, was accompanied by Dr. Mussel of Philadelphia, to use a breathing tube; I purchased one; I only made use of it for two weeks; it was the cause of bringing on bronchitis and the lungs, which reduced me so much that I was quite to set up, my voice was entirely destroyed, so that difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly in a certain book he had named, I sent for half a dozen bottles, received great benefit from them, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Your, &c., ROBERT WILLSEY.

Sworn before me, this 19th day of June, 1847.

Wm. V. BRADY, Mayor of the City of N. Y.

Principal Office, 30 Bowery St., N. Y.

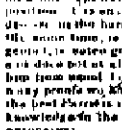
Kirkbride's Tattersall's HEAVE POWDERS.



A SAFE, SPEEDY AND PERMANENT CURE for *Heaves, Broken Wind, Chronic Cough, Colds*, and all diseases which depend upon inflammation of the mucous membrane in the lungs, throat, or head of the Horse, or affect the soundness of the Animal's Wind.

This remedy which has been used with unprecedented success in England, is now offered to Horse owners in the United States in a positive specific for those obstinate and distressing complaints. From the combination of powerful yet safe ingredients in its composition it is adapted to coughs successfully with disease in the hardest constitution of the horse, and at the same time, is warranted to be perfectly safe and secure to entire gentleness by Horses and other cattle, and does not at all interfere the natural or deter him from usual labor. The following testimonial is among people we have of its efficacy. It is from one of the best Farmers in New York, and a gentleman whose knowledge of the medical treatment of Horses is very extensive:

New York, Nov. 4 1847.

Mssrs. A. H. Gough & Co:

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse of Everett's my stable, and that I was quite dubious of the wisdom of attempting to cure such a bad cough as he was, and did not, in fact believe there were any medicines better for his complaint than those I had been in the habit of giving my extensive practice with Horses. But justice to you and your valuable remedy, requires me to say, that that *single package* cured the cough of an aged mare a case of Heaves as I ever saw, and has since gone perfectly sound. I believe no cure has permanent one.

Respectfully, ED FLOYD, 152 Laurens-st.

Messrs A. H. Gough & Co—Gents: I bought about six weeks ago, a package of Heave Powders to administer to a favorite horse, who had been troubled with heaves for more than two years. His case was a very bad one, and so severe as to incapacitate him from hard labor, and had resisted all the remedies ordinarily used for this disorder, there had not effect but to slightly diminish the violence of the heaves while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders, and I can warrant him sound.

Respectfully, GEO. W. DAVIS,
Grocer, Middlesex Co., N.J.

GREAT CONDITION MEDICINE.

Besides their specific action upon diseases of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties, are so effectual in horses as unexpectedly proves to be the human race for the removal of impurities of the blood and predisposition to disease. Many scores of founder has been prevented and cured by a few doses of the Heave Powders, which thrown into the feed that is given to the heated horse just after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly eradicate a recent cold by the use of 1 or 2 doses. As a conditional medicine they are unequalled, especially when a tight hide, staring coat, loss of appetite, etc. denote a derangement of the digestive functions, or existence of bots and worms in the alimentary canal, as described in the following certificate:

Messrs. A. H. Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The 1st dose of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were at the root of the cough, cough, cost, etc. which he exhibited, for the package has entirely cured him; his appetite is good, and he is now in prime condition. I cheerfully recommend your Heave Powders for worms as well as for the cough. Yours, SAMUEL ROBERTS,

East Hartland, L. I., Oct 26, 1847.

☞ CAUTION. As several imitations of this valuable and popular medicine are about being put up under the name of "Heave Powders," "Horse Compound," &c., persons are cautioned to be aware of them, and to try no remedy but *Kirkbride's Tattersall's Heave Powders.*

No Stable should be without this patent specific. Price $1 per package of sufficient to cure an ordinary case. 6 for 5 dollars.

Sold by A. P. Gough & Co., 149 Fulton st., New York, S. R. Foyle, Boston, and by Druggists generally throughout the United States.

GEO W LADD Agent for Bangor, also for sale by J. S. INGRAHAM. 3ideow1y Jan 21, '48

DR. UPHAM'S

Vegetable Eternal Remedy

FOR THE PILES!!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY,

invented by Dr A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark those words, INFALLIBLE REMEDY—notwithstanding spurious ones, and dull cures, any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent.* It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at $1 at a larger dose, it is very mild in its operation, and may be taken in cases of the most vacillating disposition without danger.—All extreme applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, it has proved itself a medicine of superior to all others, in all diseases of an inflammatory character, which are the result of blood to any particular part or organ. In inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder; in inflammatory and mercurial Rheumatism, it is the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the blood, arising from the improper use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, this is in cases where the blood is powerfully diseased, to the blood, producing distresses and distress. DR UPHAM'S ELECTUARY is easily administered.

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammations of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most scrupulous Catholic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will assume an easy tone, in a safe delivery, and a natural case instead of a difficult one.

CURE FOR LIFE GUARANTIED.

The Electuary contains no NOXIOUS Medicines: no Aloes, Colocynth, Gamboge, or other powerful and irritating purgatives. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

D. F. BRADLEE, 120 Washington st. Boston, General Agent for the New England States.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr Upham—My dear Sir—I cannot express to you my sentiments and heartfelt thank for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the bleeding Piles for 10 years past, so much so that I became reduced to a mere skeleton, with loss of appetite, and general derangement of the digestive organs. My case became affected, and in fact I was a martyr to myself. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had been so perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve me slightly; still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man. My doughty language cannot express the heart felt thanks that I am once more restored to health, and now in a condition to support my large family, depending on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

Important to Parents.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS.

THIS remedy is safe in its operation and more easily administered than any other.

THE GREATNESS CAUSE OF DEATH among children is to be attributed to Worms. They give rise to numerous diseases, and are the more fatal because least suspected, were parents to give this subject more attention, and carefully observe the symptoms which indicate the existence of worms in bowels. *Writers of many children would no doubt be saved.* Some of the symptoms are as follows: the countenance is of a pale or leaden color, and suffused with occasional flushes, the eyes are heavy and dull, bad breath, itching in the nostrils the sleep is disturbed, the patient often awakening in great fright, and is liable to narrowing and grinding the teeth, the appetite irregular, being sometimes voracious and at other times feble, occasional vomiting, &c.

Winer's Canadian Vermifuge has acquired a reputation unexceeding that of all other medicine of the kind, and is daily increasing in popularity, whenever it is known and used, it is *universally approved*; it possesses a properties which no other article of the kind does, is *more prompt and efficient* in its action, and is entirely free from ingredients which have any bad effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and it is the language of one to high standing, who resides in Cleveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms" it may indeed be relied on with the utmost confidence, as it has *never been known to fail*; this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED.

We, the undersigned, have frequently administered a medicine prepared by Mr. John Winer of this town, designated "J. Winer's Canadian Vermifuge," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal. G. O'REILEY,

Licentiate of the Royal College of Surgeons in Ireland &c.

Q. W. DICKINSON, Member of the Royal College of Surgeons in London, &c.

Hamilton, C. W., Oct. 14th, 1846.

New York, March 30th, 1847

Messrs J. Winer & Co.: Sirs—My child of five years of age, was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

C. G. SNETHEN, 30 Rivington st.

☞ Be particular and remember the name "*Winer's Canadian Vermifuge*," this is the only article that can be depended on. *Remember this*

Dr. Townsend's

SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and, warranted superior—to any sold. It cures diseases without vomiting, purging, sick sming or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines, while it eradicates diseases it invigorates the body. It is one of the very best Fall and Winter medicines ever known. It not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. *And in this lies the grand secret of its wonderful success.* It has performed within the past two years, more than 25,000 cases of severe cures of disease, at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
2000 cases of the different Female Complaints,
900 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
6000 cases of Consumption;

and thousands of cases of diseases of the blood, viz:—Ulcers, erysipelas, salt rheum, pimples on the face, &c., &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, indicating use of extraordinary cures. R. Van Rosbirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. These are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the prevention of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the joints and bones are dreadfully swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it an excellent medicine upon a chronic rheumatic pain to which I am subject. I received an injury occasioned several years ago on a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.

Hartford, March 17, 1845.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness of the Chest, Hectic Flush, Night Sweats, Difficult or Painful Expectoration, Pain in the Side, &c., have been undoubtedly cured.

Dr. Townsend—Dear Sir: Nearly twenty years ago I took a violent cold, which settled on my lungs, and affected me seriously, indeed, feared it became a constant hacking cough, but not so severe as to prevent me from attending to my business. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my cough much bad matter, and for the last nine months previous to using your Sarsaparilla, had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption; but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 26 years. I had almost entirely lost my appetite, which is also restored. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her, as well as myself, and she is well now, and hearty as any child I ever saw. She was also full of little blotches, it took them away, and her skin is smooth and fair now; and I am entirely sure that it has been of great benefit to her health, and I shall continue to use it in my family, and recommend it to all my friends.

B. W. COGNANT, 443 Bowery.

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr. Townsend's Sarsaparilla, this will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to young ladies.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a universal and speedy cure for Pregnant Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, involuntary discharges thereof, and for the general prostration of the system—in fact, whatever be the result of infirmity, cause or cause produced by sedentarily, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the weakness of the female frame, which is the great cause of barrenness.

It will not be consented to us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and sensations of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, she also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure of thus acknowledging it and recommending it to the public. N. S. MOORE.

Albany, Aug. 17, 1847 Gov. Grand and Fulton st.

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at the time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching woman hood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not as for stimulating the system as to produce a subsequent relaxation—which is the case of most medicines taken for female weakness and disease.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house in unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores, have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully,

ISAAC W. CRAIN, 105 Wooster-st.

New York, March 1, 1847.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. E. P. PULING, M. D.

J. WILSON, M. D. E. B. SHIGGS, M. D.

P. R. ELMENDORF, M. D.

Albany, April 1, 1846.

UNITED STATES OFFICES.

Capt. G. W. McLean, of the U. S. Marine Corps, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

Rahway, Jan. 25, 1847.

A few years I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the use of Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it for the consideration of G. W. McLEAN.
